

Logitech® MX™300 Optical Mouse

MX™ Optical Engine • Mac • Optical • PC • PS/2 • USB

Precision. Performance. Power. It's all here in the Logitech MX300 mouse. Step up to advanced precision with maximum acceleration.

The Logitech MX300 features the new Logitech MX Optical Engine, a new tracking technology captures more data with each move you make. In other words, you get instant response to even your fastest movements with more accuracy and control. It's a great choice for anyone who wants outstanding performance and a comfortable fit in a stunningly eye-catching design.

- MX Optical Engine delivers more accuracy and control on more surfaces than ever before
- Quick-switch program selector lets you switch views between active programs and documents at the touch of a button
- Comfortable rounded shape fits nicely in both left and right hands
- Improve your searching speed by using the scroll wheel to quickly move through documents

Advanced Precision and Performance

- New benchmark in optical systems combines high resolution and high frame rate to achieve superior performance.
- Ground-breaking new engine captures more data every second, measuring even the smallest movement.
- 800-dpi sensor ensures unparalleled accuracy.
- Quick Switch Program Selector moves you between active documents and programs with one touch.
- Leading-edge design incorporates comfortable rounded curves that fit left and right hands.
- Never use the scroll bar again with a high-precision scroll wheel that speeds you through documents.
- Five-year warranty.
